

# How to Create a Privacy Policy Page on WordPress

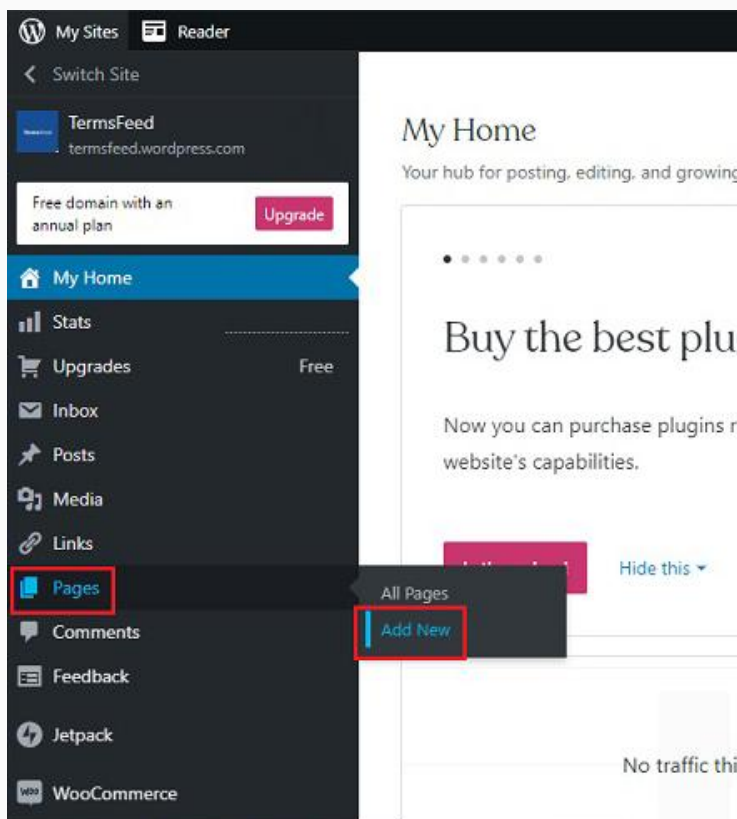

**Steps:**

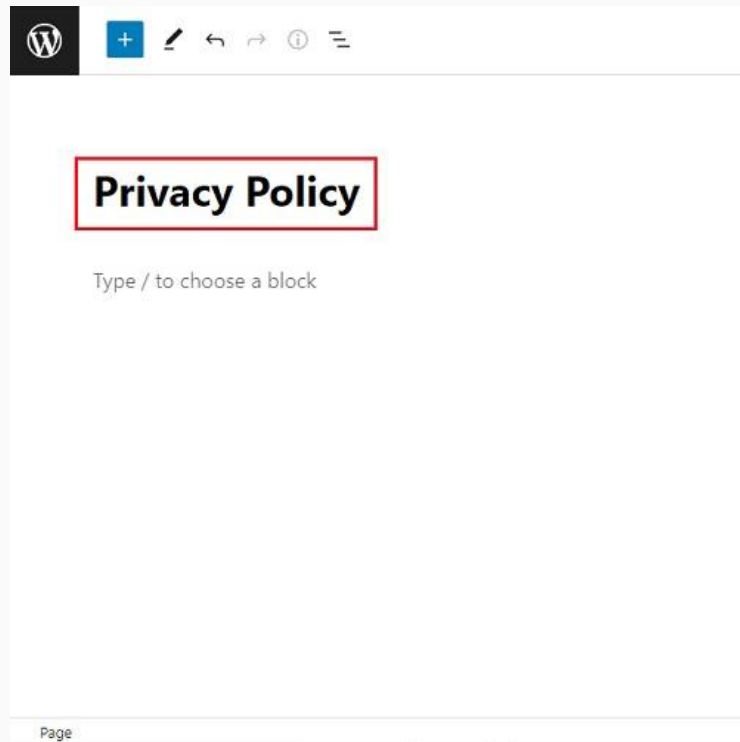

1. **Log in** to your WordPress site.

2. On the Dashboard Menu go to **Pages** and choose **Add New**:

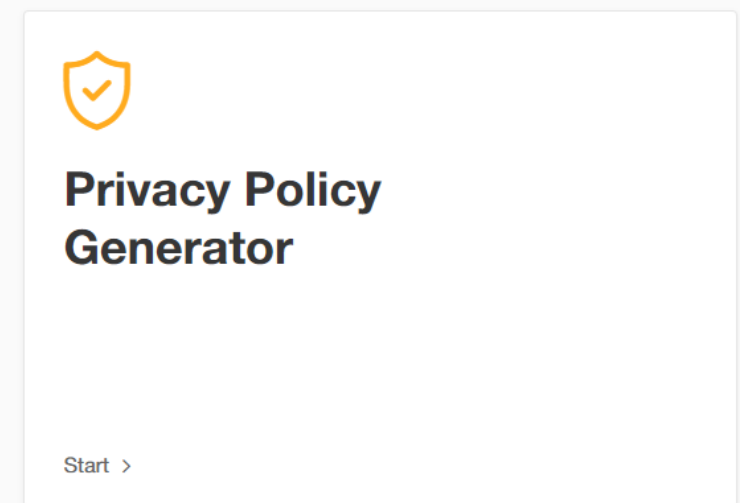

- When page editor opens **type** “**Privacy Policy**” in the title field:

- Now you need to add text to your Privacy Policy page.

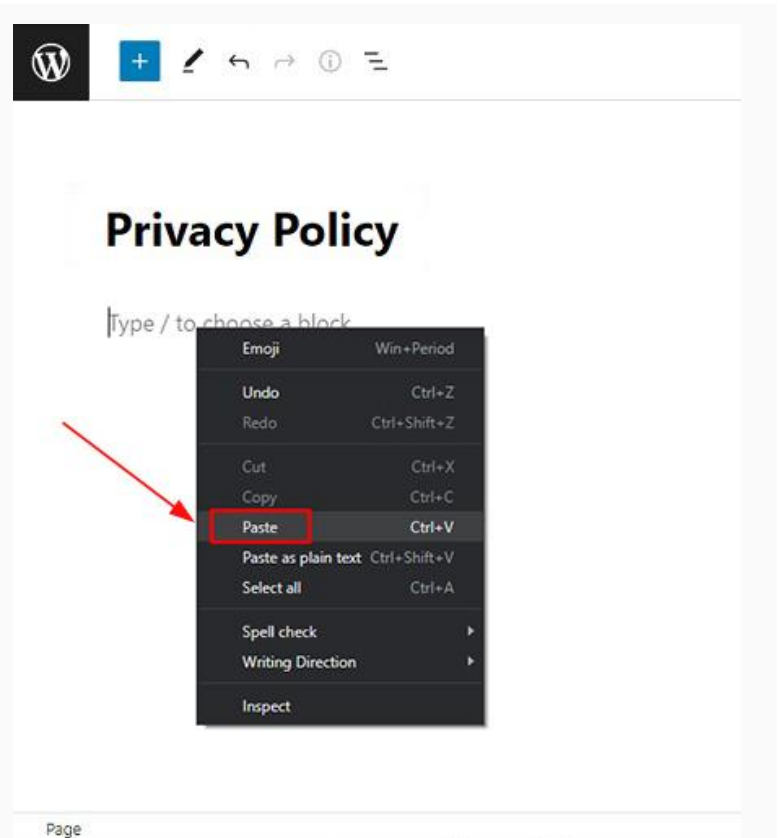

**If you do not have a Privacy Policy, you can use our [Privacy Policy Generator](#) and create it within minutes.**

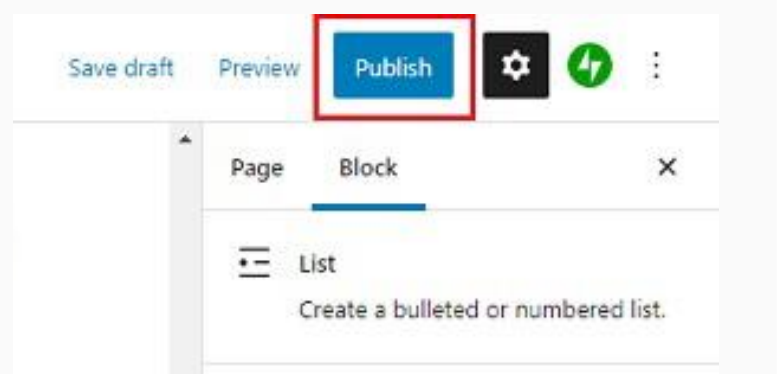

- Go to our **TermsFeed generators** app and log in. In the header menu choose “**Agreements & Policies**” and on your Privacy Policy card click on **Download** button. On download page scroll to the section “**Copy your Privacy Policy**” and below click on the “**Copy this to clipboard**” button:

6. Then **go back** to the page editor and **paste the text**:

7. Click **Publish**.

**You're done!**

Legal compliance is now a breeze.

All-in-one compliance software that helps businesses get (and stay!) compliant with the law (GDPR, CCPA+CPRA, CalOPPA, and many more).
