

How to Link to a Privacy Policy on GoDaddy from website footer

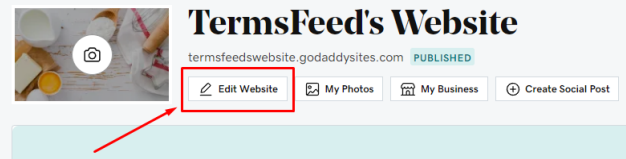

Steps:

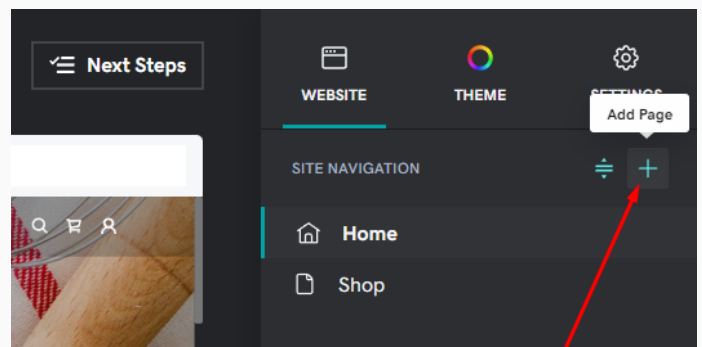

1. **Log in** to GoDaddy.

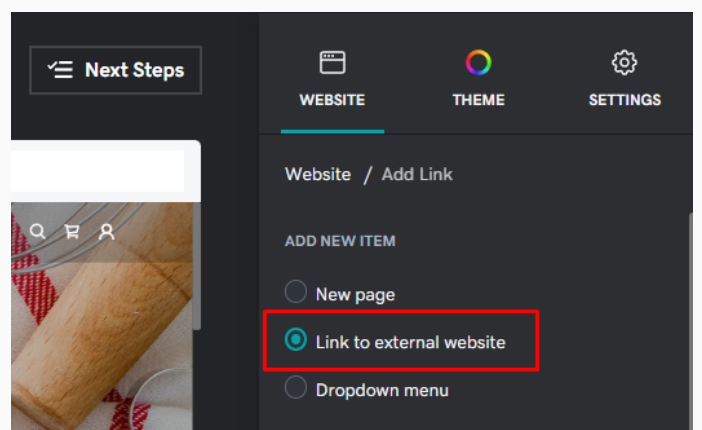

2. From the Dashboard, click on **Edit Website**:

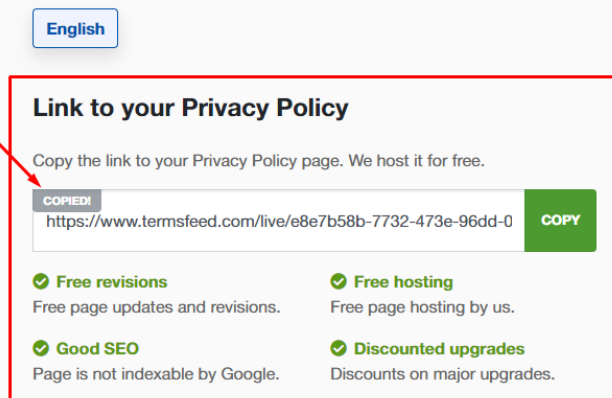

3. When **Website Builder** opens, go to **Site Menu** and click on **+** to add a new page:

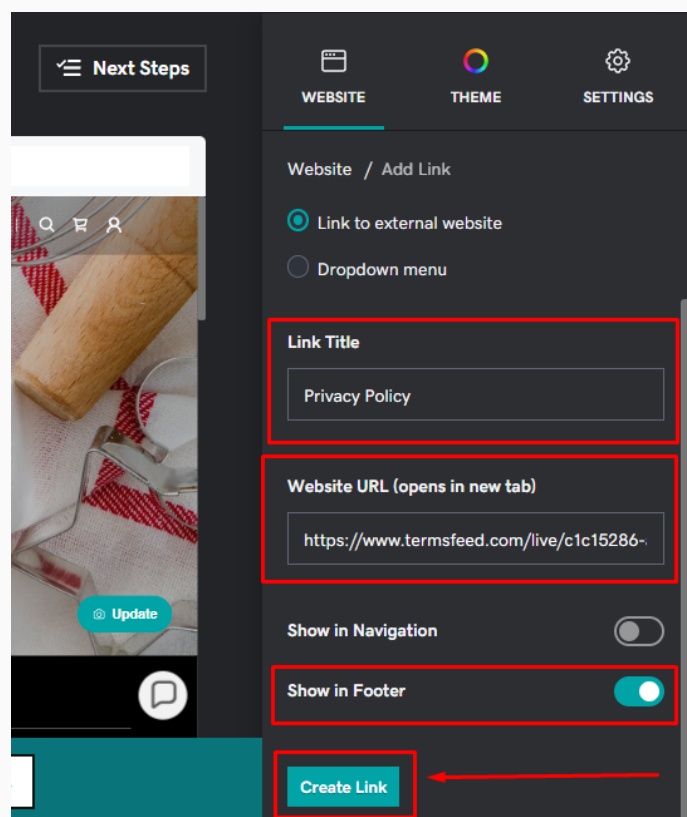

4. Under **Add New Item**, select the **Link to external website** option

5. To get the Privacy Policy URL link, go to the [TermsFeed Privacy Policy Generator](#). From here you can create a Privacy Policy and get the hosted Privacy Policy URL.

6. Once you copy the Privacy Policy URL, go back to GoDaddy's Website Builder. Enter "**Privacy Policy**" in the **Title** field. **Paste** the generated hosted Privacy Policy URL in the **Website URL** field. Then click the toggle for **Show in Footer** and click the **Create Link** button at the bottom:

You're done!

Legal compliance is now a breeze.

All-in-one compliance software that helps businesses get (and stay!) compliant with the law (GDPR, CCPA+CPRA, CalOPPA, and many more).
